## ***Discover Young Living Therapeutic-grade Essential Oils***

Learn and Experience the compelling history why pure essential oils support all levels of healing!

An ancient modality, proven by modern science. Join us for this Essential Evening!

We will discuss new products introduced at convention and key messages from Gary Young, Young Living's Founder, as well as information passed on from other keynote speakers. Dessert and beverage will be served to Young Living's specifications of no white sugar, white flour, or caffeine. Along with some of our newest products, we will be reminded of old favorites as we explore a deeper understanding why Young Living is referred to as essential oil's world leader in plants, preparation, purity, and potency.

All are welcome so bring your friends, come ready to learn, and experience the uplifting energy of Young Living.
